

To Whom It May Concern,

I am writing to highly recommend Disha Mandaliya, who has been as a working student for technology marketing at Siemens Autonomous Factory from October 1, 2023, to October 1, 2024. During her tenure, Disha has demonstrated great organizational skills, a proactive work ethic, and a remarkable ability to create engaging marketing content.

Disha has been responsible for producing short-form marketing content, including LinkedIn posts, as well as more detailed pieces, such as technology blogs. Her work has been instrumental in effectively communicating our technological innovations to a wider audience. She has shown great initiative in coordinating with various stakeholders across the organization, from broader marketing teams to project teams, ensuring that our communication strategies are aligned and impactful.

One of Disha's significant contributions has been her role in the communication efforts for an international sales campaign. Clear and continuous communication was key in driving attention to the campaign. Additionally, she has worked on communication strategies for various technology projects, including innovations in textile manufacturing, robotics, and factory logistics, among others. Her versatility and adaptability in handling different subjects have been a great asset.

Disha Mandaliya is a highly capable and motivated individual who has made significant contributions to our department. Her proactive approach, great organizational skills, and ability to create high-quality marketing content make her an asset to any team. I have no doubt that she will continue to excel in her future endeavors and strongly recommend her for any opportunity she pursues.

Please feel free to contact me if you require any further information.

Sincerely,

Edward Cornelius Krubasik
